Evaluating the social and behavioural outcomes of a council-wide universal free school breakfast scheme.

Louise Harvey-Golding, Lynn Donkin, John Blackledge, Julie Young and Margaret Anne Defeyter.

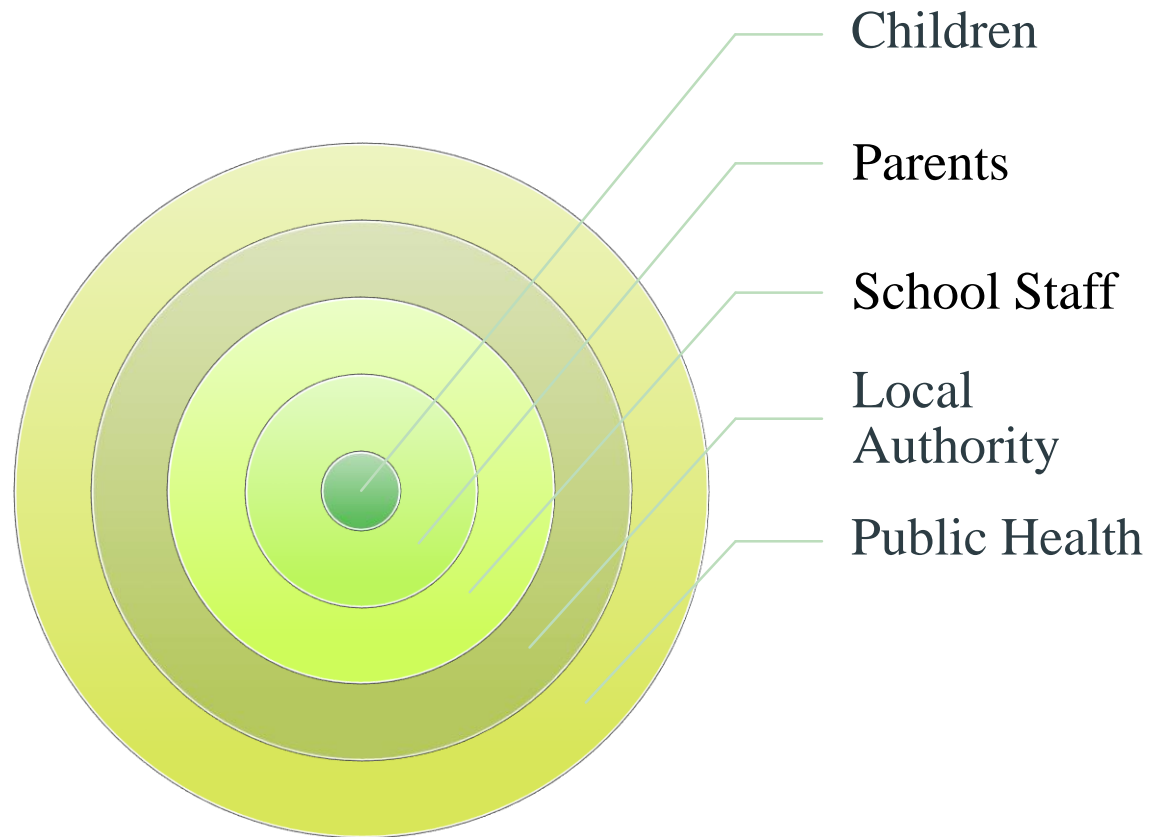

Context of the Research:

- ▶ PhD project examining the social and behavioural outcomes of a universal free breakfast programme within a universal deprived area of North West England, UK. ¹.
- ▶ Universal free school breakfast programme aims to address inequalities and improve nutrition, diet and educational outcomes. ².
- ▶ School breakfast provision has increased in UK but research into the impact school breakfast programmes is complex.

Early Qualitative Findings

Interviews and Focus Groups with 66 Stakeholders

Poverty and Food Insecurity

We are quite a poverty stricken area and it perhaps doesn't seem a great deal of money to somebody that's got a little bit in their pocket but when you have nothing it can mean going without. (School Staff)

It's such a poor deprived area, and people just can't afford [food]. There's food banks in the area. (Parent/carer)

I think it just takes the pressure off them and it just gives them the knowledge that the child is gonna come to school, have something to eat to set them up for the day till lunch time. (Parent/carer)

In this catchment area, we're in a deprived area so for whatever reason a lot of children come to school without breakfast. (School Staff).

Alleviates Rushed Mornings

I know it can be quite a rush in the morning when you've got lots of children, so to bring them in and know that they're here and they're ready. (Parent/carer)

If they've got work and they don't have to pay for breakfast club. They can drop them off a little bit earlier and then get to work and I know some parents that do that. (Parent/carer)

There's a lot of chaos in my house in a morning. You know everyone is busy getting ready for work. (Parent/carer)

I've got to be at college for 9 in the morning, so that helps me drop them off before. (Parent/carer)

My mum has a baby now so she doesn't have much time to do our breakfast so I think it's helping her that we go to breakfast club. (Child)

Weekends and School Holidays

Holidays are a killer, a lot of them are working in the holidays and they can't have the time off in the summer. (School Staff)

There are families of concern that we think we know they're not going to have that breakfast when they get home and they won't have the quality. When there's lots of them, big families, you know it's the cost, especially during [school] holidays." (School Staff)

You know certain children and you think what's going to happen to them over the holidays. You're worried, are they getting fed, and probably the answer is no, they're not and it must be hard for children as well. (School Staff)

I think for some children, some families there is a definite, definite need, you know we've had to give food parcels out and things. (School Staff)

Sometimes I don't have any...because sometimes on weekends there isn't any breakfast things in, because erm the food are only in little boxes and erm there's isn't any left. (Child)

Previous Research:

- ▶ Rise in food banks during school holidays. ¹.
- ▶ Food poverty worsened during school holidays when free school meals, milk and fruit are not available to children. ².
- ▶ Teachers report that children return from the longer school holidays having lost weight and showing declines in readiness to learn. ³.

Breakfast Behaviours: Skipping

I have had times where my children's like, 'well I'm not hungry, I don't want anything.'
(Parent/carer)

Mum sometimes doesn't have any, but [has breakfast] when she gets home. (Child)

Skipping breakfast and then cause they're on school dinners trying to stop eating.
(School Staff)

I suppose it's not setting a good example cause they don't see you doing it. (Parent/carer)

Breakfast Behaviours: Double Breakfasting

Other children who eat at home, go to early birds, have their breakfast there, come in school have their breakfast there and then at break might have a piece of fruit. (School Staff)

Mine last year were quite good at saying, no I've already had breakfast I'm not hungry, they'd only really eat when they were hungry. (School Staff)

Obviously I control the amount he has in the house, normally I would give him a certain amount, I give him slightly less than that. (Parent/carer)

Even though he has had a small breakfast at like 8'o clock it puts him over till dinner time. (Parent/carer)

A lot of them do just say I've had it already and they're fine and they know, but some of them do eat loads. (School Staff)

Previous Research into Breakfast Behaviours:

- ▶ Research suggests that breakfast omission detrimentally impacts on learning. ¹⁻³.
- ▶ Associations have been suggested between school breakfast participation and reducing obesity levels. ⁴.
- ▶ Limited research into ‘double breakfasting’

The bad behavior creeps in, because they just don't know what to do and then they're not concentrating so they will have annoyed the person next to them. (School Staff)

You just forget everything that you're doing and the teacher has to stop helping other people and go through it again. (Child)

Universal free school breakfast: a
qualitative model for breakfast
behaviors. *Front. Public Health* 3:154.
doi: 10.3389/fpubh.2015.00154

In recent years, the provision of school breakfast has increased significantly in the UK. However, research examining the effectiveness of school breakfast is still within relative stages of infancy, and findings to date have been rather mixed. Moreover, previous evaluations of school breakfast schemes have been predominantly quantitative in their methodologies. Currently, there are few qualitative studies examining the subjective perceptions and experiences of stakeholders, and thereby an absence of knowledge regarding the sociocultural impacts of school breakfast. The purpose of this study was to investigate the beliefs, views and attitudes, and breakfast consumption behaviors, among key stakeholders, served by a council-wide universal free school breakfast initiative, within the North West of England, UK. A sample of children, parents, and school staff were recruited from three primary schools, participating in the universal free school breakfast scheme, to partake in semi-structured interviews and small focus groups. A Grounded Theory analysis of the data collected identified a theoretical model of breakfast behaviors, underpinned by the subjective perceptions and experiences of these key stakeholders. The model comprises of three domains relating to breakfast behaviors, and the internal and external factors that are perceived to influence breakfast behaviors, among children, parents, and school staff. Findings were validated using triangulation methods, member checks, and inter-rater reliability measures. In presenting this theoretically grounded model for breakfast behaviors, this paper provides a unique qualitative insight into the breakfast consumption behaviors and barriers to breakfast consumption, within a socioeconomically deprived community, participating in a universal free school breakfast intervention program.

Keywords: school breakfast, breakfast behaviors, food insecurity, food poverty, families

Introduction

The prevalence of school breakfast has increased considerably in the UK, with a 45% rise in provision since 2008, and current estimates that 85% of schools offer breakfast schemes (1). The UK government recently announced an investment of £3.15 million over 2 years to establish sustainable breakfast clubs in primary and secondary schools (2). From a policy perspective, a fundamental factor in the prevention of hunger in children at the start of the school day (3). With recent reports that almost a third of the UK population experience significant p

Extending the Research:

- ▶ Examine concerns about breakfast behaviours:
 - Breakfast Omission
 - Double Breakfasting
 - Breakfast Locations (home, on the way to school, at school)
- ▶ Developed an efficient, low cost tool for gathering dietary data from children to address concerns.
- ▶ Minimising methodological issues.

Developing a Breakfast Diary Tool:

What did you do this morning?

1. Did you watch television at home this morning?

No Yes (Put a tick in the correct box)

2. Did you have anything to eat or drink at home this morning?

No Yes

What did you have to eat or

.....

.....

.....

.....

Follow the arrows!

Write down
EVERYTHING
you can
remember!

3. How did you travel to school this morning?

walk

cycle

by bus

by car

NATIONAL DIET AND NUTRITION SURVEY

Food and Drink Diary Instructions

Instructions.....2-3

Diary examples.....4-27

Examples and advice on food descriptions.....28-34

.....35-38

Day: Thurs		Date: 31 March		
Time	Where? With whom? TV on? Table?	Food/Drink description & preparation	Brand Name	Portion size or quantity eaten
<i>How to describe what you had and how much you had can be found on pages 28-34</i>				
6am to 9am				
6.30 am	Kitchen Alone No TV Not at table	Filter coffee, decaffeinated milk (fresh, semi-skimmed) Sugar white	Douwe Egberts SILVER SPOON	Mug A little 1 level tsp
7.30 am	Kitchen Partner TV on At table	Filter coffee with milk and sugar Cornflakes Milk (fresh, semi-skimmed) Toast, granary medium sliced Light spread Marmalade	As above Tesco's own Hovis Flora Hartleys	As above 1B drowned 1 slice med spread 1 heaped tsp
9am to 12 noon				
10.15 am	Office desk Alone No TV Not at table	Instant coffee, not decaffeinated Milk (fresh, whole) Sugar brown	Kenco	Mug A little 1 level tsp
11 am	Office desk Alone No TV Not at table	Digestive biscuit – chocolate coated on one site	McVities	2

Children's Breakfast Food and Drink Diary

For primary children aged 9-11

Weekend

Secret number:	Date:

1

Please tell us more about what you had to eat and drink this morning:

1) If you had milk this morning, was it whole milk (blue top), semi-skimmed milk (green top), skimmed milk (red top) or a milk alternative e.g. soya, oat, coconut?

Other milk:

Whole Milk
Semi-skimmed Milk
Skimmed Milk

2) If you had cereal this morning, how much milk did you have on your cereal?

A little
Some
A lot
Drowned

3) If you had cereal this morning, did you sweeten with sugar, honey or syrup?
 Yes, sugar Yes, honey Yes, syrup None/ did not have
 If yes, how many teaspoons?

4) If you ate bread this morning, what type of bread was it?
 White Granary Wholemeal Brown 50/50 bread
 Other Type:

Large loaf or small loaf: Large Small

If the bread was shop bought, how was it sliced?
 Thick Medium Thin Unsliced
 Name: e.g. Warburton's, Asda, Hovis.

3

Breakfast Diary Toolkit:

Food Diary Information

This is a food diary for you to tell us about the food and drink you have from waking up in the morning to before lunch:

- On school days this includes: at home in the morning, on the way to school before lunch.
- At the weekend it includes everywhere from waking up to before lunch

It is not a test and it is important that you do not change what you normally eat just because you're keeping this diary. The most important thing is that you answer questions truthfully.

You should start your food and drink diary on Monday and fill it in for seven days on Sunday. After lunch break each day you will be asked by your teacher to fill in a section of the food diary telling us about what you had to eat and drink from before lunch break. You will be given a diary to take home for the week.

When: On a school day each day is divided into 3 main time slots: at home in the morning, on the way to school and at school before lunch.

Where: This could be at home in your bedroom, kitchen, sitting room, at a friend's or family member's house, in a car, on a bus/train on the way; it could also be from a shop, takeaway, café, school canteen, classroom or elsewhere. Tell us if you were sitting at a table or watching TV.

With Whom: Give information about who you were with when you were drinking. This could be alone, with family, with friends, with your teacher, staff etc.

What: Describe your food and drink giving as much detail as you can. Include extras like sugar and milk in your tea or cereal; butter or other spreads or sauces such as ketchup and mayonnaise.

Brand: Please make a note of the brand name (e.g. Heinz, Walkers, Hovis) if you know it.

Amount eaten: You can specify packet (e.g. Crisps), or number of individual items (e.g. biscuits, cereal bars), or slices (e.g. bread, bacon), or spoons. For drinks, write glass, cup or mug. More help on describing portion sizes is provided in sections of this toolkit.

Cooking methods: If you know how the food was cooked (e.g. grilled, baked, fried), please record this. If you're unsure about how your food is cooked, please ask the person who prepares it if possible.

Help: You can find help on describing food and drink in this toolkit. As described, you can find pictures of portion sizes of some common breakfast foods. Pick the picture that looks most like the portion you had and record its letter in your food diary.

Left overs: We would like to know the amount that you actually ate, so please tell us if you left any food or drink.

Describing food/drink and amounts

Use the following table for information on how to describe the food and drink in your diary. It's in alphabetical order so you can easily look up the food or drink.

Food/Drink	Description	Preparation	Amount
Baked beans	Standard, reduced salt or reduced sugar	Cooked in pan or microwave	Number of tins
Biscuits	Cheese, wafer, crispbread, sweet, chocolate (fully or half coated), bourbon, custard cream, jammy dodger, shortbread	Home-made or shop bought	Number of biscuits
Breakfast cereal and muesli	Brand: Kellogg's, Nestle, Asda Variety: Cornflakes, Weetabix, Cheerios, Coco pops	Added fruit or nuts With milk, sugar, honey, syrup	See for portion sizes Spoon
Bread	Wholemeal, granary, white or brown; 50/50 Currant, fruit, mat	Alone or with spread or filling Grilled, toasted, fried	Number of slices Thin or thick Cut
Buns and pastries	Loaf, currant or plain, jam, custard, fruit, cream	Home-made or shop bought	Number of buns/pastries
Butter, margarine & fat spreads	Flora margarine, Lurpack butter, Asda margarine, Utterly Butterly	On bread, crackers, malt loaf	For portion sizes 13-1
Cake	Fruit, sponge, fresh cream, iced, chocolate coated Filling: buttercream, jam	Home-made or shop bought	Large slice How or portion
Cereal bars	Type/brand name: Coopops bar, Kellogg's Special K Bar	With fruit, nuts, coated with chocolate/yoghurt	Number of bars Multi-pack
Cooked breakfast foods, e.g. bacon, sausage, eggs	Bacon: back, streaky, smoked, unsmoked, with/without fat Sausage: type, brand name, pork, beef, fat, thin etc.	Fried with or without oil, grilled, baked, boiled, poached, scrambled	Number of pieces, rashers, items etc
Crisps	Brand name and type: Walker's Salt and Vinegar, Wotsits Cheese What sort: potato, corn, wheat, maize, vegetable		Standard or from multipack Standard or sharing bag
Fruit fresh	Apple, banana, orange, grapes	With or without skin Chopped up or whole fruit?	Small, medium or large piece or portion

Gathering Additional Data:

- ▶ Caterer's Diary.
- ▶ Researcher Observations.
- ▶ Food and Beverage Packaging.
- ▶ Photographs of Portions and Packaging.

ATTOWJ

Before you start the food diary please answer the following questions about your school's free school breakfast:

1. Do you serve breakfast before or after the formal start of the school day?
2. Does the school use a house caterer, school contract caterer or other?
3. Is food prepared for school breakfast on or off site?
4. What are your opinions on the food and drink quality of the breakfast?
5. Do you know where food is sourced for school breakfast?
6. Do you serve the same or different foods daily for breakfast?
7. What food serving model does your school use for breakfast?

Please continue on the next page...

2

Start of School Breakfast Food and Diary

This food diary should be completed by the school caterer responsible for preparing/ serving free school breakfast. The diary should be completed each day after school breakfast for one school week –Monday to Friday.

Each day you should record the types of foods and drinks served for free school breakfast including brand names where appropriate, amounts served in individual portions, preparation methods, leftovers and wastage.

In addition to this breakfast food and drink diary you will also be supplied with a plastic bag for you to retain and store any food and drink packaging from free school breakfast items. This will be collected with your food diary.

Day 1: Monday

Please complete the required information below:

Food/ Drink Type and Brand Name where possible	Amount Served in Individual Portions	Preparation Methods

4

Why is this data useful to us as academics, policy makers and practitioners?

- ▶ Concerns about breakfast behaviours amongst children, e.g. breakfast skipping and double-breakfasting.
- ▶ We have developed a low cost efficient tool for gathering data to examine these concerns.
- ▶ Knowledge on children's breakfast behaviours and effective tools for gathering this knowledge are important to research, policy and praxis.
- ▶ In the context of rising school breakfast provision it's important to assess that intended outcomes such as reducing hunger and health inequality are being met.

Thank you for listening

Any questions?

Universal free school breakfast: a qualitative model for breakfast behaviours
